Hobbies

I make music as a hobby and earn some money from music . I'm a singer/songwriter/music producer too.

Profile

Product designer with a strong passion for creating engaging and intuitive user experiences. Proficient in user research, wireframing, prototyping, and visual design. Skilled in industry-standard design tools such as Adobe , Invision and Figma. Quick learner, detail-oriented, and committed to staying updated with the latest design trends and technologies. Seeking opportunities to contribute to innovative projects and further develop skills in the field of Product design.

Employment History

Freelance Product Designer

December 2023

Completed a low Fedility reward app design for a client in fiverr from India. I earned $50 USD for a project.

UX Designer Assignment in Techolution

November 2023

Redesign of the City of Cleveland website home page.

The homepage has three rows: "Cleveland Now" for current events, "Most Requested" for common services, and "Emergency Numbers" for urgent contact. The redesigned page includes a news section, "Cleveland Gallery," and a footer for easy access to crucial city resources and security contacts.

Freelance UI/UX Designer

September 2023

- Working in collaboration with a talented full-stack developer friend, I am immersed in the exciting task of designing a fully custom UI/UX for a music player. we both completely shared our passion for music and technology together as time passes we hope we create a unique and user-friendly experience for music enthusiasts.
- As the UI/UX designer, I am responsible for creating wireframes and mock-ups that visually depict our concepts. We begin with discussing about design elements, color schemes, typography, and overall layout.

Projects

Finance app

A fully user-friendly finance app design that is intuitive and easy to navigate it has range of features including balance statistics, payment options, transaction history, and card management . Stay informed with real-time notifications for incoming and outgoing transactions. you can make credit card repayments directly through the app. you Never have to worry about forgetting your password - simply utilize the one-time password (OTP) option for password reset. Create your profile in just a few simple steps: enter your full name, choose a unique username, and provide your date of birth. You even have the option to personalize your profile picture.
